

Spare part services

Spare parts safeguarding availability is important part of our total service.

Logisteel Oy's customer benefits:

- High-Quality solutions
- Fast deliveries
- Cost efficiency

Thanks to our well-functioning network and internal manufacture of spare parts, we are able to guarantee the operability of our customer's spare parts process and short response times.

As regards the product modules delivered to the customers, we manufacture, store and deliver the necessary spare parts of assemblies, guaranteeing rapid and reliable deliveries to the customer's further processes or directly to end customer.

Our operations comply with the ISO 9000 standard.
